

### **Replacement and extension of west taxiway**

The Algona Airport is in the final design process for the replacement and extension of the west concrete taxiway. The public hearing will be in early April of 2011 with bids being opened on April 27, 2011. Construction is expected to begin in June with completion by fall. The taxiway extension is needed in anticipation of a new larger hanger being built in 2012. Airport projects are funded 95% by Federal and State money with the remaining 5% from the City.
