

SOUTH PARK SHELTER HOUSE AND PARK SIGN

The design of the new shelter house and South Park sign is currently underway. City staff will be looking at the cost for an indoor/outdoor shelter house with a restroom and drinking fountain vs. the cost of just an outdoor covered shelter with restrooms and a drinking fountain. There is a budget of \$5000 for the design and construction of the park entrance sign and \$85,000 budgeted for the design and construction of the shelter house, restrooms, drinking fountain and extending water, sewer and electric facilities to the shelter house. The final design will need to meet the needs of the community as well as stay within budget for both design and construction.

I&S Group partnered with Kuehl and Payer are the design firms on this project.

This project is scheduled to be constructed the spring of 2010 with completion no later than June of 2010.
