

## **McGREGOR AND PHILIPS INTERSECTION IMPROVEMENT**

Design and construction will begin moving forward on this project as soon as all right-of-way needed for this project is obtained. The City is hoping by early 2010 design can begin with a DOT letting date in spring 2010. The intersections of U.S. 169 (Phillips Street) and McGregor Street will be improved with a traffic signal upgrade and by providing protected left turn lanes for north-south traffic. The City has received a grant through the Iowa Department of Transportation Traffic Safety Improvement Program in the amount of \$88,000. The total cost of the project is estimated to be \$215,000.
